CASSELL'S LATIN DICTIONARY

CASSELL'S LATIN DICTIONARY

CASSELL AND COMPANY, LTD.
LONDON AND NEW YORK

The New Latin Primer.

By J. P. POSTGATE, M.A., Litt.D., Fellow of Trinity College, Cambridge, Professor of Latin in the University of Liverpool; assisted by C. A. VINCE, M.A. 93rd Thousand.

"The outline of the syntax of moods and tenses in Part I is clear and good. Part II opens with a short chapter on Pronunciation and Spelling, a useful list being given for the correct spelling of words which are commonly wrongly spelt. Then come the rules on the gender of nouns, lists of nouns of the third declension, with their genitive, and of irregular nouns. The supplementary syntax occupies sections 297 to 431, and is both full and clear. Especially useful will be found the parts which treat of the translation of English prepositions and of 'that' and 'to.' The subjective, again, and *oratio obliqua* are admirably handled."—*Educational Times*.

PREFACE

IN preparing a Revised Edition of the Latin-English part of this Dictionary, the aim has been so to adapt the work that it may be suited for the middle forms of public schools. It is above all intended to be a Dictionary of Classical Latin, and thus a large number of archaic, or post-Augustan words, have been omitted, while nearly all the important articles have been entirely rewritten, chiefly with the view of introducing a greater number of quotations to illustrate constructions and usage. The historical and geographical notices have been largely increased in number and lessened in size. Etymologies have been added, but mainly those of an unambitious kind. It is hoped that the considerable changes that have been made in type and classification will make the work more intelligible, and so more useful.

SIGNS AND ABBREVIATIONS PECULIAR TO THE ENGLISH-LATIN SECTION

I.—(a) Brackets () enclosing the first syllable of a compound verb, denote that both the simple and compound forms of the verb are in use, as (*de*)*currere*. Lack of space, as a rule, has prevented the explanation of the difference in shades of meaning between the two forms. Where the student finds this a difficulty, a reference to the Latin-English section will at once relieve him. An English-Latin Dictionary serves its best purpose when it encourages the beginner to consult quotations from Roman authors in a good Latin Dictionary.

(b) Brackets enclosing a single letter denote that the word was written sometimes with and sometimes without that letter. Thus, *ex(s)pectare* shows that the two forms *expectare* and *expectare* were both in use. The table at the beginning of Messrs. Lewis and Short's Latin Dictionary has frequently been consulted in respect to the spelling of doubtful words.

(c) Brackets enclosing a whole word denote that the word may be inserted or omitted according to the context. Thus for "tide," *aestus (maritimus)* implies that *aestus maritimus* is the full phrase, for which *aestus* alone may sometimes serve.

II.—Space has not allowed the insertion of much help in the way of declensions and conjugations, but the genitive of nouns in the fourth declension is given to distinguish them from those of the first. Where such a genitive occurs in a phrase, it is given thus, *aestus, -ūs, maritimus*. In a few other instances of doubtful words, genitives are also given.

III.—* prefixed to a word denotes that it is of modern or very late Latin origin. † appended to a word denotes that it is only used, in the Classical period, by poets.

IV.—

<i>alqs</i> = <i>aliquis</i>	<i>alqm</i> = <i>aliquem</i>
<i>alqd</i> = <i>aliquid</i>	<i>alqm</i> = <i>aliquam</i>
<i>alcjs</i> = <i>alicujus</i>	<i>alqo</i> = <i>aliquo</i>
<i>alci</i> = <i>alicui</i>	<i>alqâ</i> = <i>aliquâ</i>

Ante and Post Aug. = used by writers before and after the time of Augustus.

Circumloc. = circumlocution.

Class. = Classical, *i.e.* belonging to the best period of Latin literature.

Com. = used by the comic poets.

Comb. = in combination.

Gram. = used by the Latin grammarians.

Inscrip. = found in inscriptions.

Jet. = used by the Jurisconsults, or lawyers.

Late ; very late = used by authors after the Classical period.
